

Capture the Flag is a great way to meet new members, support our area meetings, help create unity in our area, and have fun!

1. Find out which SFVANA meeting has the flag. This information will be given by GSR's, and/or found at SFVASC@googlegroups.com
2. Gather five members from your home group go to the meeting currently holding the flag. Check in with the secretary.
3. Stay for the entire meeting, and you have captured the flag.
4. If two or more groups should show up to Capture the Flag, then the group with the newest newcomer will have the honor of taking the flag back to their home group.
5. If the flag has been captured by a Men's or Women's meeting any NA members may attend the meeting to capture the flag. It is suggested that you have a group conscience BEFORE capturing the flag so has not to create disunity in your group.
6. If your group captures the flag, your group has to wait for the flag to be captured two more times by two other groups before recapturing the flag. This is to prevent the flag from going back and forth between two meetings.
7. Send a picture, and include your meeting information to SFVASC@googlegroups.com

*GSR's should be checking the Google group to see where the flag is, so they can take the information back to their group.
